

## COMPANY POLICY

Conscious that quality, environmental protection, a healthy and safe working environment and continuous improvement are the best investments, CIRCONTROL is adopting a series of measures surrounding these commitments:

- CIRCONTROL aims to properly train its employees and develop its commitment to educate them on the application of this policy.
- It aims to have a smooth relationship with the sales network, clients and suppliers, in order to detect and correct any possible deviations.
- Finally, it will look out for any relevant market and stakeholder needs, in order to constantly improve the product and provide the best service according to the demands of our current and potential clients, whilst upholding maximum respect for the environment and looking after the well-being of employees.

To summarise, CIRCONTROL intends to consolidate quality and risk management, compliance with legal requirements and the applicable regulations, the prevention of contamination and climate change, the elimination of hazards and the minimisation of risks for its employees, continuous improvement and the full satisfaction of its clients.

Mr Joan Hinojo
