Additional or different terms provided in Buyer's purchase order which vary in any degree from any of the terms herein are hereby objected to and rejected. In addition, nothing contained herein shall be deemed to require CIRCONTROL to take any action that would constitute, directly or indirectly, a violation of any laws of any applicable jurisdiction, and CIRCONTROL failure to take any such action shall not be deemed a breach hereunder.

4. Schedules and Delays

CIRCONTROL shall during the design and manufacture or assembly of the Equipment provide the Buyer with progress schedules and notify the Buyer of any projected delays in delivery. Notification of any delay shall give CIRCONTROL's best estimate of the date on which dispatch is projected.

5. Control and permits. Notice of defects

Prior to shipment CIRCONTROL will conduct inspection of the Equipment as it deems desirable to facilitate commissioning at destination.

Unless otherwise agreed, Buyer is responsible for drawing up documentation and obtaining any and all required permit, homologation or alike from the local authorities, if any.

Failure by Buyer to give such notice and make such statement shall constitute acceptance and a waiver of all such claims by Buyer. In no case CIRCONTROL shall be liable for damages or loses upon delivery in CIRCONTROL's premises.

Buyer shall be required to procure at its own expense any import licenses or related documentation required for the country of destination and/or any intermediate destination to which the Equipment is to be dispatched or delivered.
